LEAH NANKO DOMLE

Junior Full-Stack Developer | Node.js · Express.js · MongoDB · React

Jos, Plateau State, Nigeria | +234 701 019 1231 | linadomle@gmail.com

GitHub: github.com/LeeLeeDomle | Portfolio: leelee-digital.vercel.app

PROFESSIONAL SUMMARY

Junior full-stack developer with a B.Sc. in Chemistry, building a career in backend development. Built web apps including a multi-role equipment rental platform and a React e-commerce app that is now getting its own REST API. I debug methodically and break problems into small testable steps, habits from lab science. Seeking a junior or trainee developer role.

TECHNICAL SKILLS

Backend: Node.js, Express.js, REST API design, middleware, JWT authentication, bcrypt password hashing, error handling, dotenv

Databases: MongoDB, MongoDB Atlas, Mongoose

Frontend: JavaScript (ES6+), React, React Router, Context API, Vite, HTML5, CSS3, responsive design, SEO basics

APIs & Tools: Postman, Thunder Client, Git, GitHub, VS Code, Nodemon, npm, Vercel

SOFT SKILLS

Problem-solving · Self-directed learning · Attention to detail · Clear communication

PROJECTS

JAEL — Full-Stack Fashion E-Commerce App (in progress) | *React, Vite, React Router, Node.js, Express.js, MongoDB Atlas*

- Built the React frontend: 4 product categories, product details, cart, wishlist and checkout flows, with shared state managed through Context API.
- Added login and OTP signup screens, dark mode, fuzzy product search (Levenshtein distance) and SEO metadata.
- Started the backend: Express.js REST API with Mongoose, connected to MongoDB Atlas, with a Product model and a working GET /api/products endpoint.

FarmRent — Farm Equipment Rental Platform (personal project) | *HTML, CSS, JavaScript, Node.js, Express.js, JWT, bcrypt*

- Designed and built a rental platform with multi-role authentication using JWT and bcrypt password hashing, an escrow-style booking flow and an equipment operator system.
- Integrated Paystack for payments; added dark mode and a fully mobile-responsive layout.

Savour — Recipe Discovery App (live on Vercel) | *JavaScript, TheMealDB REST API*

- Consumed a third-party REST API with asynchronous data fetching and dynamic rendering in vanilla JavaScript; deployed on Vercel.

TRAINING & CERTIFICATIONS

- **Self-Taught Developer** — Independent study and project building in web development (2023 – present).
- **Backend Development Course (in progress)** — Node.js, Express.js, MongoDB: REST APIs, middleware, authentication with Mongoose, duplicate-key error handling (409 responses).
- **Microsoft AI Skills Fest** — Built and deployed an AI agent using Microsoft Foundry (badge earned).
- **Code Plateau Bootcamp, Jos** — Introductory Software Development Training (2023).

EDUCATION

B.Sc. Chemistry — University of Jos 2018 – 2023
